About Us

Your Washroom Systems and Architectural Opening Specialists

Incorporated in 1976 as an Agency Business, today we are the largest specialist supplier of washroom systems and architectural hardware to the commercial, industrial and institutional sectors in Trinidad and Tobago. We represent a large number of leading manufacturers from both the UK and USA. As authorized manufacturer representatives, we can uphold full manufacturer warranties, provide quality installations and after sales support.

We strive to be the premier supplier of Architectural Openings and Washroom Systems solutions within the region. With a goal to foster and promote partnerships with relative elements in the construction industry, founded on principles of **integrity**; keen **customer service**; **technical expertise** and **competitiveness**, to help build aesthetic and functional systems that ensure enduring life safety and security for architectural openings and appropriate sanitation in commercial washrooms.

Architectural Openings

POUCHET

Architectural Openings

Providing Security and Life Safety to commercial, industrial and institutional Openings, no matter the application, function or aesthetic requirements.

Steel Doors

These full flush or embossed panel doors are ideal for internal or external use and come in a wide range of options to meet your performance expectations

Wooden Doors

These full flush semi-solid and solid core doors, furnished with a laminate or wood veneer finish and edged with hardwood are ideal for internal use only and are custom made to fit your opening.

Steel Frames

Typically overlooked, frames provide the backbone for each opening. Getting this wrong from the start will only ensure persistent headache. Available in both knock down and face welded and suitable for masonry or drywall applications.

Specialty Openings

For those applications requiring increased performance, We carry certified Bullet Resistant doors; Hurricane rated doors, Lead Lined doors, doors with Sound Transmission Control certification and full Stainless Steel shop front doors.

Accessories

To finish off these openings in style, we carry a full range of Air Louvers for return air & ventilation and Vision Lites with options of security or fire rated Glazing.

Architectural Door Hardware

POUCHET

Architectural Door Hardware

Ironmongery, more commonly known as Door Hardware, is essential to achieving door functionality, protection and aesthetic appeal. **We share our knowledge on each of our consultations, ensuring the right selection of hardware is made from inception.**

Door Locks

Not given due consideration, we can help you select the correct lock type, grade, function, design and finish to meet your criteria.

Door Control

Mainly consisting of overhead holders, door closers and automatic operators, we have a full range of options available to meet your specific requirements.

Exit Devices

Also known as push bars, these devices not only facilitate egress, but also structural reinforcement to the door, prevent warping and jamming of the door when you need it the most.

Hinges

Perhaps subject to the most wear on a door, hinges are an integral part of the Architectural Opening. Available in a wide range of options to meet the most demanding requirements or abusive environments.

Door Accessories

These components mainly bring convenience and protection to an opening, which include items such as protection plates, pull handles, door bolts, door stops and signage.

Sealing Systems

Engineered to satisfy a range of needs, thresholds, door bottoms, astragals and weather stripping can help embrace acoustic insulation, keep out the weather and contain deadly smoke in the event of a fire.

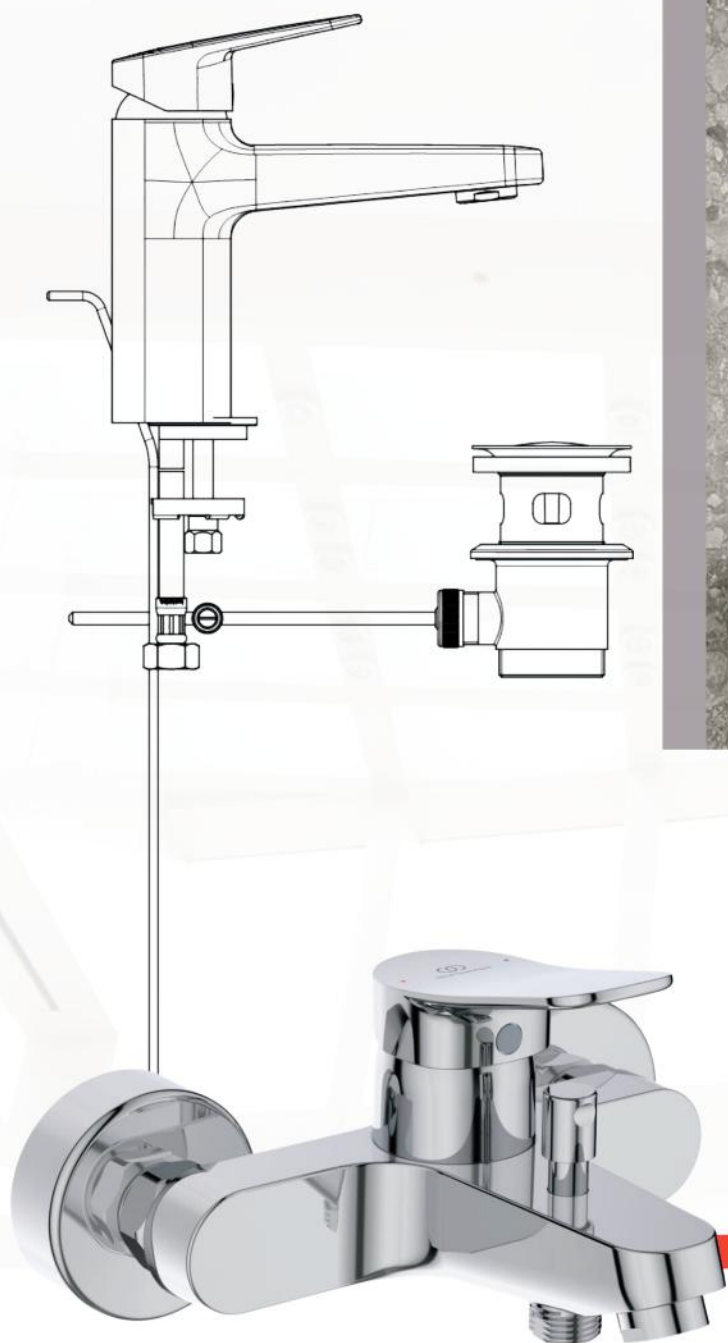

Electronic Access Control

No matter the size of your establishment, monitor and manage your facility remotely, maximizing productivity and flexibility, without sacrificing security.

Henderson Sliding Gear

From small 9kg sliding hatch doors to 8000kg large industrial doors. Over 60 different hardware products, 5 styles of mechanism, interior and exterior options, top hung and bottom rolling support options, along with a huge range of accessories.

Washroom Accessories

POUCHET

Washroom Accessories

When strategically located, these designer accessories can organize, personalize and help maintain a sanitized washroom environment, even in high traffic and abusive environments.

Toilet Paper

Available in a myriad of configurations, options and finishes these dispensers can either be surface mounted or recessed, to meet your design preference.

Paper Towel

For situations where hand dryers may not be most practical, these dispensers can dispense paper rolls or multi-fold towels. Available in touch free operation.

Mirrors

Furnished with a stainless steel channel framing and an extended warranty against de-silvering. L.E.D. lighting is also available in either back lit or front lit options.

Shower Accessories

Includes straight, curved or angular shower curtain rods from stainless tubing, Antibacterial vinyl curtains with gromets, Stainless curtain hooks, Towel bars and Soap dish holder.

Soap

Hygienic and aesthetically pleasing, these dispensers can dispense the exact amount of soap each and every time. Available in manual or touch free, configurations.

Hooks & Shelves

A complete collection of clothes hooks, towel pins and utility shelves to complement the washroom décor.

Hand Dryers

Stylish, durable and cost effective over the life of the unit, these dryers are quiet and hygienic when compared to others on the market. These dryers are best value for money.

Baby Changing

These units are wall mounted and fold down to create a purpose built changing table, complete with disposable liners and restraint belt. These are a must in every public washroom.

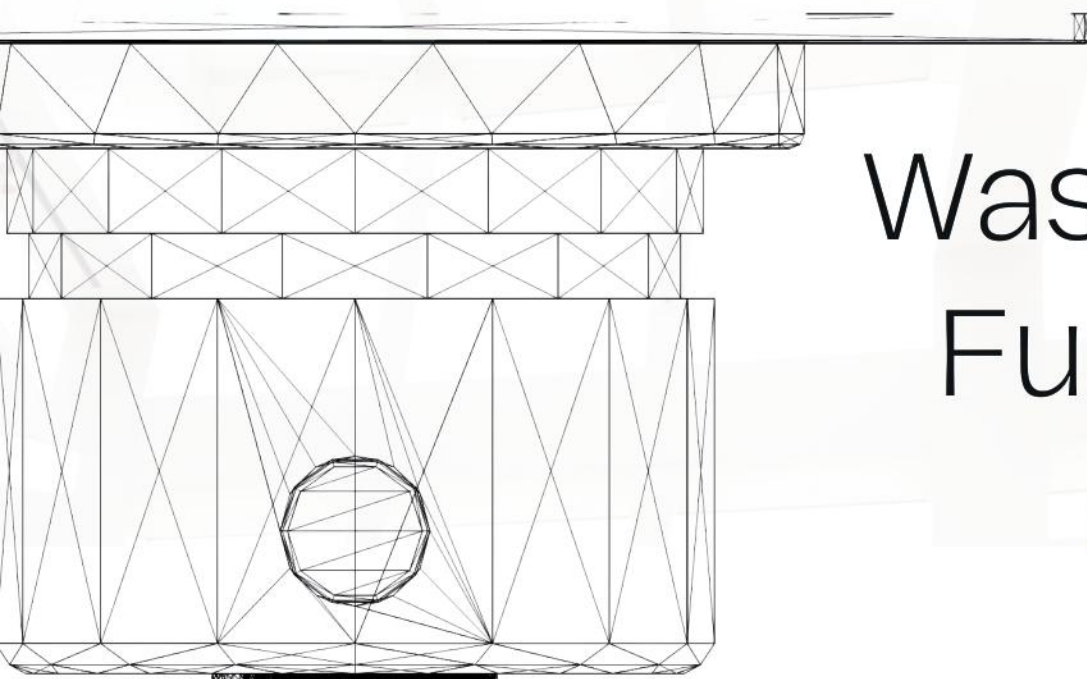

Waste

After spending hard earned money to upgrade your washroom, unsightly waste receptacles should be furthest from your mind. These Bins complement the décor with matching stainless finish.

Grab Bars

Not only required for the elderly, but for the permanent or temporarily physically challenged as well. Available in straight and swing-up configurations, and finished to stainless or powder coated white.

Washroom Furniture

POUCHET

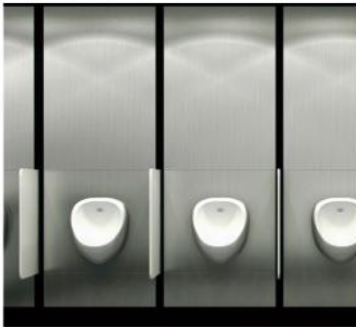

Washroom Furniture

Stylish, Dependable, and totally Custom made to your exact dimensions, layout and décor, our furniture has been tried and tested in some of the most abusive environments and has proven victorious again and again.

Lockers

Available in Solid Phenolic or Solid Plastic, to meet both design appeal and resistance against extreme elements. Ideal for locker rooms, pool areas and factory changing rooms. Variations to size, design configuration, layout, finish and operation mechanisms are available for your selection.

Access Panels

Intended for use with a plumbing duct, allowing restricted access to the concealed plumbing systems within, these panels are typically used with anti-vandal fixtures. The system conceals plumbing infrastructure within the void, but still allows for quick and easy access to these plumbing services. These panels are 100% custom made to your exact requirements.

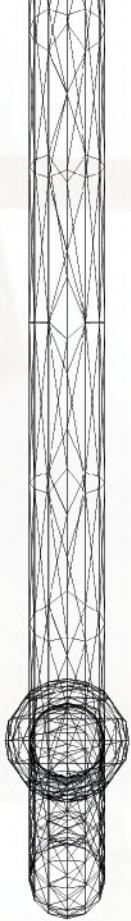

Toilet Partitions

We pride ourselves on being able to meet everyone's expectations where toilet compartments are concerned. Being a local manufacturer as well as a manufacturer's representative, we have an extensive range of offerings that include a vast range of materials; privacy options; colours; finishes; hardware types; price ranges; availability, and warranty to meet your expectations. All components are 100% custom-made.

Counter Tops

Available in post-formed laminate for the budget friendly projects or solid surface for a seamless and fully repairable option, these countertops are custom made to your exact requirements, CAD shop drawings are prepared to illustrate the details of the size, colour, heights and profiles before hand.

Sanitary Ware

POUCHET

Sanitary Ware

Selecting sanitary ware can appear daunting since there are so many options which directly impact the user's comfort, safety, hygiene, function and long term durability.

We represent Industry Leaders who have combined design without sacrificing performance, making the selection process a "no brainer".

Toilets

Available in a range of options to suit your intended use and function which include colour; configuration; trap outlets; Available with or without sensor activation.

Basins

Depending on the washroom type and design, basins are available wall hung, countertop mounted, semi-recessed, under mounted and vessel type. With a complementary range of faucets.

Urinals

These fixtures are paramount to improving the overall efficiency of any Gents washroom. Available with exposed or concealed supply, tank or flush valve operation with or without sensor activation.

Sinks

These fixtures have more to do with function and durability than design. Typically used as cleaner sinks, lab sinks and commercial kitchens, made from either fire clay or stainless steel. These fixtures demand specific function faucets and accessories.

Showers

Regardless of the design, layout and shower configuration, we have all the components from shower trays to glass enclosures and rain shower kits, to meet your expectations.

Accessible Sets

To make life easier for the physically challenged, there is a complete line of fixtures and fittings all designed specifically for this use, all conforming to ADA and DOC M specification.

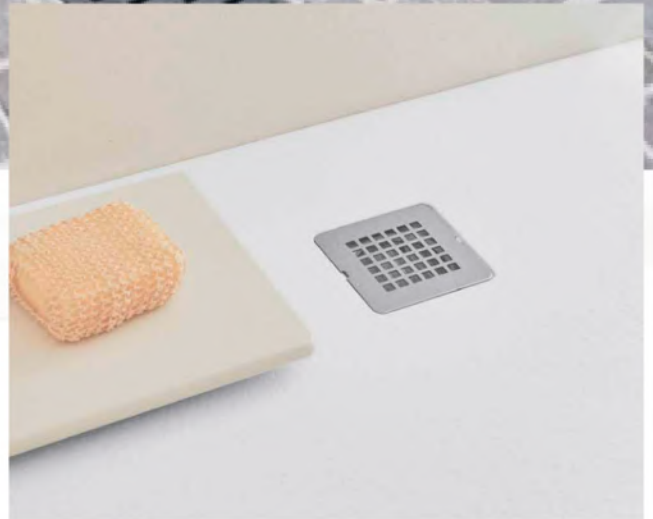

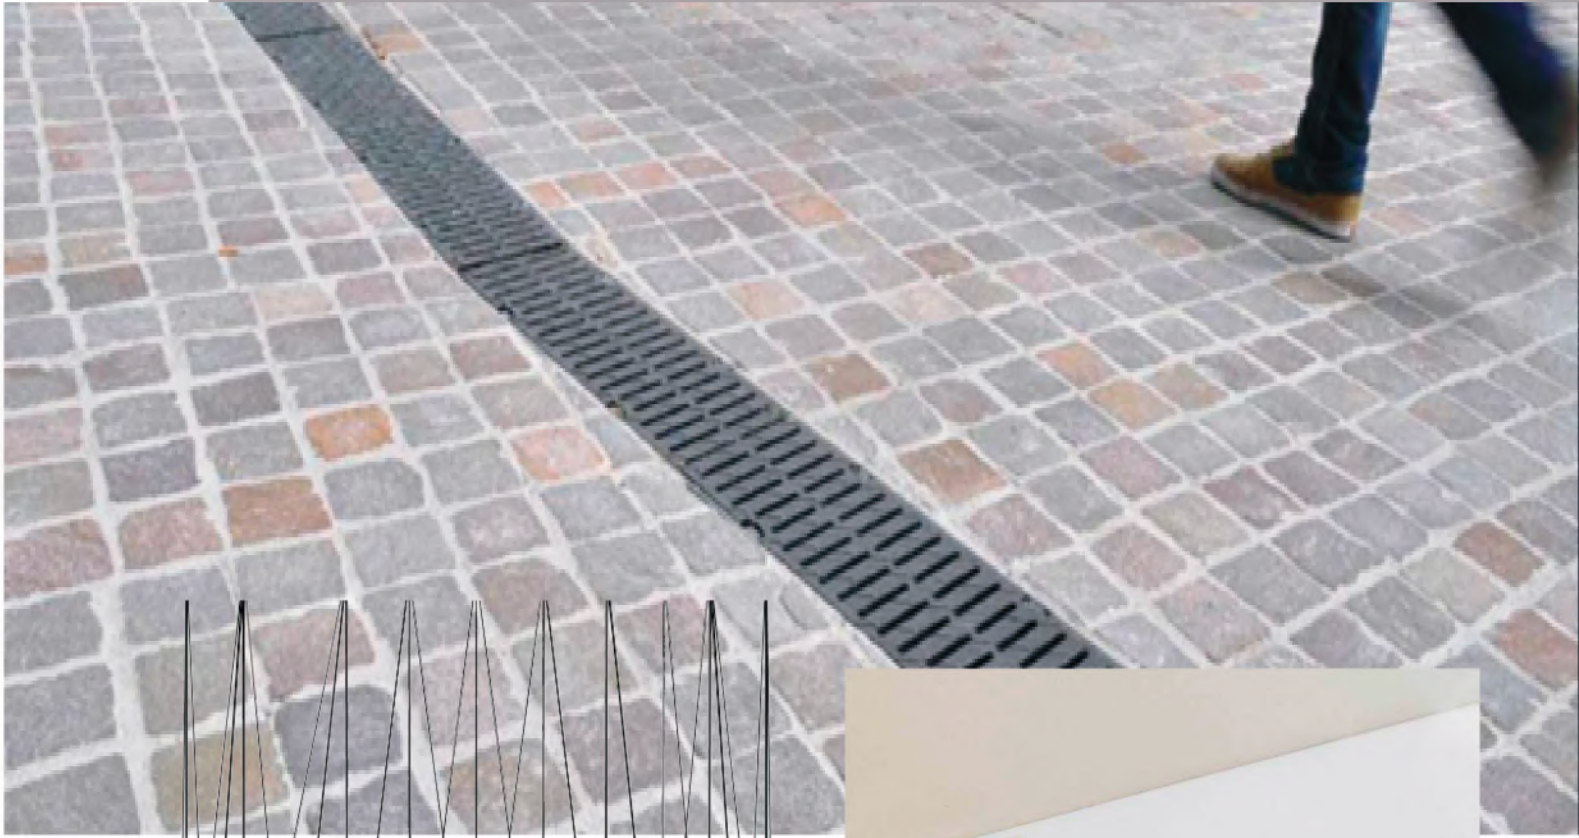

Healthcare

Most people don't appreciate the level of performance these fixtures must provide. They are specifically designed to protect against the spread of infectious diseases. Simply put, regular commercial fixtures can't work in a hospital!

Penitentiary

Intended for institutional use where inmates try to seize every opportunity to create havoc and mischief, these fixtures and fittings are purposely designed to maintain control and order.

Drainage

POUCHET

Drainage

Understanding drainage requirements can make all the difference in our everyday lives. Oversized drainage simply costs more, but undersized drainage can lead to catastrophic failure.

Trench Drainage Systems

Also known as Linear or Slot Drains, range in width and can be designed to run the entire length of a runway. Suitable for pedestrian traffic to extra heavy vehicular traffic and from indoor use to chemical resistant rating, there is a drainage system for every possible application.

Roof Drainage Systems

The combination of inadequate or incorrect drainage and excessive rainfall over a short period can have catastrophic failure. Ranging in type, size, orientation and grating, there is a solution waiting for your roof.

Interceptors

Designed to stop contaminants such as cooking fats, oils and greases from entering out waterways, preventing clogging of sewer systems and the destruction of our environment. Available in different capacities, flow rates and types to make them most suited to your specific conditions.

Floor Drains

Applicable for internal use and underground car parks, these drains are easy to install and are available in a range of sizes, material compositions, weight classifications, grating design and pipe connections options.

Clean Outs

Wall or floor mounted, these covers are designed to not only hide unsightly plumbing clean outs, but also protect them from every day life and restrict access to authorized persons only. Clean outs are a vital to any sewer or waste water plumbing system and is required by the local authorities to pass inspection.
