

ASPIRO™ SERIES

HIGH-IMPACT DOOR

MASONITE
ARCHITECTURAL

Our High-Impact doors are crafted to stand up to the challenges of demanding environments.

Designed to withstand heavy traffic, High-Impact doors do not require protective metal edge guards, kick plates or armor of any kind. Our High-Impact doors are built to last while maintaining a superior appearance, improving design aesthetics and eliminating the armored-door look.

High-Impact Door, Honey Maple

DURABILITY ENHANCED DOORS ARE IDEAL FOR:

- Healthcare facilities
 - Emergency rooms
 - Assisted living facilities
- Hospitality
 - Hotel lobbies
- Education
 - Gymnasiums

SURFACE MATERIALS

We offer a premium aesthetic range of standard woodgrain patterns. Custom solid colors and decorative woodgrain designs are also available. Laminate surface offer includes both Kydex and Ven4ma products.

THERMOPLASTICS

VEN4MA

**HIGH IMPACT
DURABLE
EDGES**

PROTECTING ALL EDGES

Impact edges come standard with the High-Impact door and can also be specified with other face materials including choice laminates, and selected wood veneers.

This integrated one piece edge protects the door where damage most often occurs—at the edges, acting much like a bumper so the door's surface retains its aesthetic appeal through the years.

Vertical edges are designed with no crevices allowing all surfaces to be quickly and easily cleaned. Doors can also be specified with a clean edge that covers the top and/or bottom of the door to create a smooth, easy to clean surface.

CONSTRUCTION DETAIL

Designed to withstand heavy traffic, our High-Impact doors are built to last and are available in a variety of options including fire-rated, acoustic rated and lead-lined configurations to support diverse applications.

Our doors are also built to WDMA, Heavy Duty and Extra Heavy Duty performance standards.

Service Is Our Specialty

Our team of experts specialize in architectural door solutions with an emphasis on quality, design options, flexibility and technical knowledge. Our extraordinary customer experience is built on customer-focused order, production and service functions. Combined with an end-to-end focus on quality, we've earned a reputation for doing things right.
